Amber, Colour Of Love (Mousset T Remix)

Show me the colour of love Somehow it seems like a sign from above Get closer Love is all we need The colour of love

I have been watching you all night I know you can feel it too I'm trembling inside I love you

Back in time we met Those days we had I'll never forget I can't live without you

A love so true

Show me the colour...

True love is what you've given me I'll be there if you feel the same You're the one I see There's no shame

Back in time... Show me the colour.. Back in time... Show me the colour..
