

# Amber, If I'm Not The One

I listen to the words you say --  
slowly striking me as lightning  
Whatever seemed to be so safe  
fell down like a house of cards  
Tell me that I'm dreaming

Why did you talk about love  
when you've never really loved me?  
I lose it from desperation  
This feeling, so frightening --  
that you and me will never be

Chorus:  
If I'm not the one  
don't expect my heart to understand  
If I'm not the one  
the diamond sky is dark again  
My sense is gone and done  
if I'm not the one

The frigidity drives me crazy  
I am almost going insane  
Your words keep running through my head  
What more can I do than cry?  
Life will never be the same

Chorus (1x)

Can't we get back again?  
I can't let love slip through my hands -- oh, no  
Can't we get back again?

Chorus (fade out)
