

Amber, If There Is No Tomorrow

If there would be no tomorrow
What would you do if there would be no tomorrow

Imagine the future would just be your world
The sun falls asleep with the moon
Would you think differently for the moment
Any idea what you do

People if there would be no tomorrow
Would you be frightened of today
If there would be only one day left to exist
What would you do if there would be no tomorrow

There would be no tongue to respect the feel
Cause you have no other choice
Experience your dreams
To feel what they mean
Finally have a voice

People if there would be no tomorrow
Would you be frightened of today
If there would be only one day left to exist
What would you do if there would be no tomorrow

Tomorrow
Tomorrow
