

# Amber Kuo, I Remember

Do u know that I'm ok  
Are there things you wanna say  
Thinking of u night and day  
Hopping you'll come back and stay  
I remember when u told me  
I'll be all right  
Don't worry  
I try and try to understand  
Is all this just a sad goodbye  
Thinking of u night and day  
No matter if you'll come and stay  
I remember when u told me  
I'll be all right  
Just hold me  
I don't wanna close my eyes tonight  
Missing u make me cry  
Your love will give me strengths to carry on  
You'll always be my heart and mind  
So I don't wanna close my eyes tonight  
I know it's just a miss match in time... why... oh why...  
Miss match in time  
I try and try to understand  
Is all this just a sad goodbye  
Thinking of u night and day  
No matter if you'll come and stay  
I remember when u told me  
I'll be all right  
Just hold me  
So I don't wanna close my eyes tonight  
Missing u make me cry  
Your love will give me strengths to carry on  
You'll always be my heart and mind  
So I don't wanna close my eyes tonight  
I know it's just a miss match in time... why... oh why...  
Don't wanna close my eyes tonight.
