

Amber VHS, Let's Dance

if you're in quarantine
with no other place to go
the things look pretty shhh
at least you've got a stereo
all gloom and doom
no mercy
you try but you're so through
go grab a drink
no sweat
i know just what to do now

let's dance!
let's dance!

if you're in quarantine
with no other place to go
the things, they look pretty bad
but you've got a stereo
all gloom and doom
no mercy screw
you try but you're so through
go grab a drink
no sweat, i know
i know now what to do

all night
let us dance and
let us dance and
make it right

let's dance!

if you're in the wrong state of mind
with no other help on hand
the reality is not being kind
you just want this shhh to end
all gloom and doom
no comfort bong
where did it all go wrong?
go grab a drink
no sweat, i know
let's disco to this song

all night
let us dance and
let us dance and
make it right
