

Amberian Dawn, I'm Still Here

(Verse)

I'm hearing your heart beat, my love is changing me
Never lasting moments matter all to me, you'll never meet my son
Your picture is burning, my fate in changing years
I'll forever drift in endless seas, my descent sent love away

(Chorus)

Can you feel me? I'm still here
Might change me, might change me
Haaaa!

(Verse)

Your steps fading away, my world enchanting me
I can picture you inside all the stars only rot when you are near
Still hearing your heart beat, my love is changing me
Winter feeling, love is full of grief, I am spent for eternity

(Chorus)

Can you hear me? I'm still near
Might change me, might change me
Haaaa!
