

Ambrosia, For Openers

(puerta - pack - drummond - lewis***)

Ain't nobody out there, just me and you
It's one on one, just we two
I got somethin' like a heartbeat
Only you control
And I'm up as far as I can bear to go

This is the road so welcome home
Where nothing real abounds
There is no reason we must wait
Let's take these pleasures now

Now...

Ain't nobody out there gonna disagree
We're all hiding something under lock 'n' key
You don't like it but you just can't stop
(but) keep your screws on tight
We'll undo all that's been done to you tonight

This is the place it all begins
There's no time to back down
There is no reason to pretend
Just take these pleasures now

Now...
