

# Amduscia, False Freedom

Broken tears and damned hearts  
No love no life  
Stupid tears and damned hearts  
No love no life  
Just pain in your veins  
In this world of shit and sadness  
Just hate in your mind  
In this world of shit and madness

No love no life

This is incredible but is real  
This world spit a crime  
Your world is over now  
Open your eyes

You take a look around  
And see the hell  
This is the world of shit and sadness

You take a look around  
And see the hell  
Don't let the crime  
Throw it up in your mind

Just pain in your veins  
In this world of shit and sadness  
Just hate in your mind  
In this world of shit and madness

No love no life

This is incredible but is real  
This world spit a crime  
Your world is over now  
Open your eyes

You take a look around  
And see the hell  
This is the world of shit and sadness

You take a look around  
And see the hell  
Don't let the crime  
Throw it up in your mind

No love no life

This is the illusion for freedom  
Is the conclusion to the false freedom  
This is the illusion for freedom  
No love no life

This is the illusion for freedom  
Is the conclusion to the false freedom  
This is the illusion for freedom  
Open your eyes

No love no life
