

# Amen, In Your Suit

I go to work  
I pay the bills  
I suck your cock  
And I don't care no more  
They call it work  
I lick your ass  
Out my way  
It's gonna stop

Cuz I'm just a lie  
In my eyes  
I just sit and lick and compromise  
It's just a job drilled into dead  
They just prop me up until the end

Cuz the vaccine is  
The plague in here

Slave!  
Sleep!

I wanna see you raped and decapitate  
The sheep will always sleep until retired  
I wanna see you raped and decapitate  
In your silent fate of hidden agenda

Cause I just lie  
Into this bed  
I stare at these four walls and I am dead  
I'm mummified with "Gun Of Fear"  
And you know I don't know how to steer

Cuz the scientist is a satanist

Slave!  
Sleep!

I wanna see you raped and decapitate  
The sheep will always bleed until retired  
I wanna see you raped in your silent fate  
With your silent rape of hidden agenda  
You were born in the suit  
And you have a plastic spoon in your fucking mother's ass

In your suit  
You can never be alone in here  
In your suit  
You can never get a load in here  
In your suit  
You can never get along in here  
You can never...you can never  
Stay in here  
Pay all the fear
