

# Amen, Resignation/Naked And Violent

I can't stand this face and everything you fed  
Forced me the enemy  
And I take the things I know I shouldn't have  
Turned me into the enemy  
Station station-remote control  
Frustration station-that sold his soul  
Cause I sold myself today  
It's a solitary  
New war station  
Watch it burn the nation

I destroy myself cause I can't free  
Free the world of the enemy  
The pigs they have and the gods they feed  
Feed the lives of the enemy  
Station station-frustration station  
It's the violence in the silence  
It's a solitary  
New war station  
Watch it burn the nation

Leave the lights on leave the stains  
Through the walls of all of this decay  
Sedate the innocent  
We fall from these loaded wings

Circumsized + sterilised  
Circumsized + paralysed

Free the innocent  
Free the mother lies in  
Milk carton house hi-rise  
Bloody little lamb of father's eye  
Bad people bad world  
Bad pusher in a bad design

Circumsized + sterilised  
Circumsized now paralysed  
Circumsized + sterilised

Desensitised insentient eyes  
Free the innocent I break this skin  
Free the mother lies to let it in  
Free the innocent I break this skin  
Free the fuckin lives of....to let it in

Leave the light on leave the stains  
Leave the light on. Free the stained

Naked + violent!  
The end of America  
Naked + violent!  
The end of America
