

Amen, The Last Time

Well i stand here cuz' i can' feel the pain
I don't know who's to blame
This culture breeds and feed ascension
Desension
The tapes of your ascension

'Like to live'

The same, you all the same
Inside hole, hits decay you
Depression, Opression
Every rape for your obsession

'Fill me'

Nothing i stand in here with
Nothing i fill myself with
Nothing i burnt myself with faith
Cause i can't stand you

Ever time you look away
All the dog will fly away
These victims climb all over me
And i can never desent

This is the last time
This is the last time
Going down, where i can never stay
Last time, on the burning sands
I stand here cause i can feel the pain

You know the fucking names
This culture finds you if ties you
Everytime i can't deny you

I'm blind come in here a lie
Feeling? I can't find
Filling all the lies

This is the last time
This is the last time
Going down, where i can never stay
Last time, on the burning sands
Last time
Last time
Last time
Last time
