

# America, Houses In White

(Rose? Rose? I don't know if I have the right number but I have some bad news to tell you.)

One full circle, round, round, round  
One more calendar coming down  
Late editions scandalize  
Every headline full of lies

Houses in white  
Oh how they take me back  
There was a time  
When I lived inside  
But now I think twice  
I walk quickly by houses in white

Once I saw it all so clear  
Miles and miles away from here  
The bridge of trust was burned back there  
And we all have ashes in our hair

Houses in white  
Oh how they take me back  
There was a time

When I lived inside  
But now I think twice  
I walk quickly by houses in white

Pilot, pilot, fly me home  
And let me sleep with clouds below  
'Cause mixed emotions, they overflow  
And now's the time to be alone

Houses in white  
Oh how they take me back  
There was a time  
When I lived inside  
But now I think twice  
I walk quickly by houses in white

Houses in white  
Oh how they take me back  
There was a time  
When I lived inside  
But now I think twice  
And I hurry by houses in white
