

American Hi-Fi, Beautiful Disaster

I'll make you a five star enemy
I'm taking a fall would you
Like to see?
Choke it down, what a sound
Run away from me
Keep on laughing girl, do you
see me?
Break it down now
What 'chu want anyway?
Right about now,
I'll fuck it up again
We keep falling in love
What a beautiful disaster
Connect my skull to the socket
Burn baby burning, like a rocket
Can't sell? Do tell, won't you buy it?
