

# American Hi-Fi, Rise

I dont know what I can take  
Can you feel the pressure break  
Ive been getting by on nothing  
How long so long  
Feeling like I lost my vision  
Transmission full of dead ambition  
Kinda sorta gotta get it together  
I cant wait forever

Rise out of the atmosphere  
I gotta disappear  
I gotta get out of here  
You got the best of me  
Rise up and outta here  
Into the stratosphere  
I gotta get out of here  
You got the best of me

I could never be that clever  
Even though its now or never  
Counting down the seconds till it blows  
4 3 2 1  
Disappear without a trace  
Could I be in outer space  
Staring at the sun till I get how high so high

Rise out of the atmosphere  
I gotta disappear  
I gotta get out of here  
You got the best of me  
Rise up and outta here  
Into the stratosphere  
I gotta get out of here  
You got the best of me

Did I break down  
Can we slow down  
I wanna get out  
I dont wanna be so bored

Rise out of the atmosphere  
I gotta disappear  
I gotta get out of here  
You got the best of me  
Rise up and outta here  
Into the stratosphere  
I gotta get out of here  
You got the best of me

You got the best of me [x8]
