

# American Hi-Fi, Vertigo

I'll do everything but your not that way  
I'm lost around you  
And you'll do everything with the same old lies  
When I can't even try

Yea you get me high  
I'm feeling so low  
How far will you let me go  
Yea you get me high  
I'm feeling so low  
I'm knocked down by the vertical

Nothing means a thing when your cold and gray  
I fall behind you  
I'll make the same mistakes with the same old lies  
When I can't even fight

Yea you get me high  
I'm feeling so low  
How far will you let me go  
Yea you get me high I'm feeling so low  
I'm knocked down by the Vertigo

Yea you get me high  
I'm feeling so low  
How far will you let me go  
Yea you get me high
