Firefly

C'mon beautiful we'll go sit on the front lawn

We'll watch the fireflies as the sun goes down

They don't live too long, just a flash and then they're gone

We'll laugh at them and watch the sun go down

You're so pretty baby

You're the prettiest thing i know

You're so pretty baby

Where did you go

Tell me why you don't sleep anymore

Tell me what you sit up all night waiting for

Are you waiting for loneliness to paralyze

Are you waiting for sister midnight to unleash the tide

You're so pretty baby

You're the prettiest thing i know

You're so pretty baby

Where did you go

Finish the prayer that started as a kiss

The overwhelming dream of happiness

I'll give you all of my good luck

For the overwhelming dream that's killing us

You're so pretty baby

You're the prettiest thing i know

You're so pretty baby

Where did you go

C'mon we'll go sit on the front lawn

I'll hold you in my arms and we're gone

Here and gone, firefly
