California

Jenny

Here you are again

Another stupid party again

A celebration for nothing

Your eyes are following

The kings and the queens of the zoo

Immune in their black clothing

They let the world down

And they let you go

Please don't go home now

Home is a place to rob

Home is alone in the mob

Home is an unheard sob

Jenny don't go home now

Please don't you go home now

Here you are again

Another stupid party again

Everyone here thinks that when they die

You will be there to let them in

Jenny don't go

Please don't go home now
