Kathleen

When no one cares for you  
You're made of straw  
No appointments to keep  
No human law

When no one cares for you  
You're made of straw  
You're living on borrowed time  
You can't do nothing right  
You can't commit a crime

When no one cares for you  
Well honey you're made of straw

Your love Kathleen is for someone  
That I swear I could have been

When no one cares for you  
You're made of straw  
You can't do nothing right  
You can't uphold a law

When no one cares for you
