

# American Pearl, Automatic

hitched on a rocket ride into the sun  
he said &quot;son I've got one for ya down there in california  
just take a look around at all you've done&quot;  
&quot;you're automatic like a burnin' gun  
you're a star like everyone&quot;  
talked to my soul today but I couldn't keep my brain away  
so I found a holiday behind the sun  
took all the friends I could spun out in hollywood  
hit up on a climate everyone  
you're automatic like a burnin' gun  
you're a star like everyone  
and you could save the world  
could be shinin' on my pearl  
you could save the world  
just might find your way my pearl  
she said &quot;I'm automatic baby systematic speed  
through the universe my engines bleed  
I'm automatic momma with automatic pace  
save me momma as I fall from grace&quot;
