

# American Pearl, California

now kids I gotta warn ya  
'cause I've been to california  
where they've got a new religion  
and they'd love for you to give in  
well I'm here to say that we'll seize the day  
we're still here to stay  
we'll never fade away  
well I don't wanna bore ya  
but I've been to california  
where everybody's reachin'  
for somethin' to believe in  
waiting for the day that we'll rise away  
still here to stay  
we'll never fade away  
so say I didn't warn ya  
'bout southern california  
where they got a new affliction  
and it hangs like an addiction  
I've been to california...  
now kids I gotta warn ya
