

American Pie 2, Good (For a Woman)

Leather skin, lately it's what I've been thinking about
This alien girl from above, we can share our love
I got it good for a woman
She's something else, she's not quite human
I got it good for a woman
She's something else, she's not quite human, human
Venusian queen, you're so bright the sun gets mean
I swear it's a dream but I pinch myself and your still green
I got it good for a woman
She's something else, she's not quite human
I got it good for a woman
She's something else, she's not quite human

I'm head over heels for a space case
Stars in her eyes and love on her face
I got it good for a woman
She's something else, she's not quite human
My head's spinning, around the world and back again
My head's spinning, around the world and back again
I got it good for a woman
She's something else, she's not quite human
I got it good for a woman
She's something else, she's not quite human
