Glory

Song: Sugar Ray

It's good to see you here again
thought you almost died
remember when we were listening
you barely had to try
got me falling from the sky
please tell me lie after lie
now I know they're gonna take my glory
from the ones I left behind
and I know they're gonna say they're sorry
but I'll never change my mind
everybody's gonna find me out

I'm going down this time
everybody's gonna know about the mess you
left behind
got me falling from the sky
please tell me lie after lie
now I know they're gonna take my glory
from the ones I left behind
and I know they're gonna say they're sorry
but I'll never change my mind

hey hey hey hey hey x2
you say I'm lazy then you lie around
you try to put me down

I know you're crazy when I see you spin
you're head around
got me falling from the sky
please tell me lie after lie
now I know they're gonna take my glory
from the ones I left behind

hey hey hey hey hey x2
now I know they're gonna take my glory
and I know they're gonna say they're sorry
and I know they're gonna say they're sorry
no I'm never gonna tell my story
