

Amerie, All Roads

When i least expect it
the unexpected
when i wasn't looking
when i had no hope

when i stop believing
when i lost my place
it was there i found you
and i found my way

all roads lead to you
no matter where i am
i know that you are standing by my side
all roads lead to you
no matter where i've been
i know you've always been my guiding light

and how'd you know that
i'd be here with you (here with you)
how did you see that nothing could replace ya (nothing's gonna replace you)
cuz no matter where i turn
yes it all came back to you (you)
and no matter what may come
i know that you'll be here to see me through

all roads lead to you
no matter where i am
i know that you'll be standing by my side
all roads lead to you
no matter where i've been

i know that you have been my guiding light

i search to find
high and low
for something that was missing
it took some time
for me to see
just where my life was leading
no looking back
a new beginning's waiting
and now i know
i never ever have to be alone

all roads lead to you
no matter where i am
i know that you'll be standing by my side
all roads lead to you
no matter where i've been
i know you've always been my guiding light

all roads lead to you
all roads
i know you've always been by my side
all roads lead to you (i know)
i know it
i know you've always been my guiding light

oh yeah
oh yeah
all road lead to you
