

Amerie, Different People

(*Amerie)

Don't say that u care
And tell me how i should be
Cuz u kno it ain't fair
To go and try to fix me
U use to love my laugh
Now u say i'm too loud
Use to like the way i dress
Now I gotta tone it down
It's like u tryna change
Things that make me...me
But I can't help but be, be who i be
We can't be different people
We can't be different people
U gotta love me or just leave me baby
Cuz who I am is who u are
Sometimes we won't see eye to eye
Cuz were different people
But I gotta love u or just leave u baby
Cuz who i am is who u are
U know that I care
And u know that I except u
And that's why I don't share
All the things I think u should do
(Something's like)
U use to take me out
Now u stay watching the game
For no reason u sent me flowers
Now it's just holidays yeah
U use to keep me guess'n
Now there's no mystery..no..no
But u can't help it babe, u be who u be.
We can't be different people
We can't be different people
U gotta love me or just leave me baby
Cuz who I am is who u are
Sometimes we won't see eye to eye
Cuz were different people
But I gotta love u or just leave u baby
Cuz who I am is who u are
It's who we are
It's who we are
People couldn't try to
And I shouldn't want to
I wouldn't want to change anything
It's who we are
It's who we are
I know that ur still with
Who u fell in love with.
I shoudn't want to change nothing
We can't be different people
We can't be different people
U gotta love me or just leave me baby
Cuz who I am is who u are
Sometimes we won't see eye to eye
Cuz were different people
But I gotta love u or just leave u baby
Cuz who I am is who u are
It's who we are...
