

# Amerie, Like It Used To Be

Yeah, yeah, yeah, yeah ....

Our love what we once treasured  
Your ways what I remember most of all  
Can't quite get away from the days we love so heavenly  
Your kiss such a sweet surrender  
That day when I let my temper get the best of what we used to have  
Now I got to ask you can you make it

[Chorus]  
Like it used to be  
Bring back your love to me  
I remember when our love was new  
And all I needed in my life was you  
And baby it felt so right to me  
Please make it like it used to be

Now I won't usually pass (?) nobody  
But why can't overses (?) so hastily  
Before God had forgiven me  
Thought the love that we had count for anything else  
Only one way to find out how and you know how

[Chorus 2x]

Ohhh, don't wanna lose your love  
And I can't stand to lose your touch  
Ohhh, I can still remember when our love was strong  
But I don't know where we went wrong

[Chorus]

Yeah, yeah, yeah, yeah .....
