

Amie Comeaux, I Heard It From My Heart

Well I've heard you're just the one I'm looking for
And everywhere I go you know I hear it a little more
Well it could be idle gossip 'cause you know how all that starts
But honey I think I heard it from my heart

Rumor says I'm crazy over you
Well I've got to check the source before I say one word is true
Comin' from anywhere else I wouldn't pay it any mind
But I think I heard it from my heart this time

I think I heard it from my heart
A subtle whisper soft and low
But loud enough to let me know
It's time to say I love you
And honey that's where I'll start
And you can say you heard it from my heart

Good news travels fast and I've been told

Talk is cheap but what I've said is worth it's weight in gold
Sayin' I love you turned out to be my favorite part
Once I finally heard it from my heart

I think I heard it from my heart
A subtle whisper soft and low
But loud enough to let me know
It's time to say I love you
And honey that's where I'll start
And you can say you heard it from my heart

I think I heard it from my heart
A subtle whisper soft and low
But loud enough to let me know
It's time to say I love you
And honey that's where I'll start
And you can say you heard it from my heart
