

Amie Comeaux, This Dream

Last night like every night before
I felt your body close to mine
You woke me with a gentle kiss
And we lost all track of time

You held me tightly in your arms
As we shared ourselves till dawn
You consumed me with desire
Till I woke up all alone

This dream I dream of you
Is drivin' me insane
I barely close me eyes
And you're holdin' me again
I know if I give in to you
By mornin' you'll be gone
And leave me with that old refrain
Just one night of love
Ain't worth the pain

Today I saw you on the street

And desire filled my mind
I longed to have your touch again
And leave all doubts behind

But you still wore her wedding ring
And my conscience took control
I'd give all I've got to be with you
But I won't give up my soul

This dream I dream of you
Is drivin' me insane
I barely close me eyes
And you're holdin' me again
I know if I give in to you
By mornin' you'll be gone
And leave me with that old refrain
Just one night of love
Ain't worth the pain
