

Amina, Shoulda Let You Go

Just to think about it, I would do things that I would regret (tryna get you)
To understand how I felt for you
I tried real hard time and time again but I
Didn't know my love wouldn't grow, I shoulda just let it go
But I, stayed around thinkin you would learn to love

And we both knew, you're wrong
There's nothing you can do, to ever undo what you've done to me
I loved you, deep in my heart I know you couldn't love me
But baby I just kept holding on, I shoulda let you go
Shoulda let you go x3

Couldn't do without it, I felt I needed you in my world (to get me by, by)
More and more I looked out for you, tried to play me like a fool so I
Didn't care that love wasn't there, had to just let it go
Couldn't stay around, thinkin you would learn to love

And we both knew, you're wrong
There's nothing you can do, to ever undo what you've done to me
I loved you, deep in my heart I know you couldn't love me
But baby I just kept holding on, I shoulda let you go
Shoulda let you go x3

Amina
And now I'm gone, plus I'd rather be alone
We both grown, lower your tone over the phone, aaight
I shoulda known, damn I shoulda known
It wouldn't last long, when you didn't come home to me
And now I'm on, in the zone, handle business on my own
So respect the queen on the throne, aaight

Here's some strong advice, move on, that's life
You wrong or right, and I gotta letchu go

And we both knew, you're wrong
There's nothing you can do, to ever undo what you've done to me
I loved you, deep in my heart I know you couldn't love me
But baby I just kept holding on, I shoulda let you go
Shoulda let you go x3

Don't know why you would ever lie to me so,
But I shoulda letcha
Don't know why I could never let you go
Coulda, Shoulda, Letcha
Don't know why you would ever lie to me so,
(Shoulda let you go)
Don't know why I could never let you go
Shoulda Let you I shoulda let you go
Heeyyyyyy
(Shoulda let you go)
Don't know why I could never let you go
But I shoulda Letcha

Everything I did (Shoulda Letcha Go)
Everything I gave you didn't understand
Don't Know why i could never letcha go
Coulda, Shoulda, Letcha
