

Ammo Poetic, Stop Rushing Me

Chorus *Fumi* 2x

Stop rushin' me, (What you want right now?)

Rushin' me let me finish talkin' (What you want right now?, What you want right now?)

Point

Calibrated souls somebody tell me where my foes

My nemesis list expandin' ten folds

3-6-5 under pressure pschycopatic torture

'Bouts to make my head fracture

Damn, professional certified madman

What? I guess you can never understand

Son, why my life's like that?

Sociopath paranoia that's my life threat

Fatal error lust infested terror

Everybody take cover, defensive measure

Better watch your back before this cerebral crack

Hey, lay that smack down what the heck

C.Loco

I don't want no hassle, no fuss, now I gotta blast through

Let me go professional, free my chains too

I gotta lotta things on my mind

I gotta lotta to settle but I got no time

Chorus 2x

Moots!

Nobody knows nobody understands me

How can I lose my grasp of reality

Why in the world won't these brothers leave me be

I do try but they still keep rushin me

I need stacks and facts I'm on the counterattack

Say what jack cos it's time for the payback

I ain't the one lookin' out for a vendetta

I'm just livin' my life la cosa nostra

C.Loco

What do I choose when I have to do so many

Situation tensed up but you seem to think it's funny

Come on just give me space and privacy

I don't rush you so just stop rushin me

Chorus 2x

Break *Fumi*

You make me so indifferent

(Take it all down so you know that I'm around push your face in now straight to the ground)

You make things come between us

(Push your face in, push your face in, push your face)

Landslyde

This is the smack down Landslyde's comin' raw with this track now

Don't rush me I'm involved rich choice hard boil tear u up hard coil

So don't you play with me that gesture I work better under pressure

So I floss if I have to I 'll be the boss if I got to

That's right splash while I drive flash while I strive

Closer as I reach for the sky exposure

Rushin' into my eyes as I told ya who be victimised

Show me the money I'll be satisfied.
