

# Amos Lee, It Started to Rain

Sally Jaye, how did it end up this way  
With our boxes packed and not one word to say  
The children played as your car pulled away  
I didn't realize till then it was really goodbye

With your wheels on the gravel  
I felt my heartstrings unravel  
As it started to rain  
It started to rain  
It started to rain  
40 days  
It started to rain

The neighbors came and they bought what remained  
Of the life we built with love and laughter

My head started sinkin'  
'Cause I couldn't help thinkin'  
Their fate would be the same  
And it started to rain  
It started to rain  
40 days  
It started to rain  
It started to rain  
It started to rain
