

Amos Lee, Listen

Listen

Listen to them church bells ringin', listen

Listen

you can hear them hounds a callin' off in the distance

If you listen

Travel

You'll find that men and women all have trouble

If you travel

You will find that for the poor

Are victims of the gun or gavel

If you travel

But be careful now

Be careful all them folks out there who surround you

Be careful

Some of them really only want to ground you

The only want control

To tear you down into their hole

So be careful

Listen

Listen to them church bells ringin', listen

Listen

You can hear them hounds a callin' off in the distance

if you listen

You can hear the engines stallin'

You can hear the angels fallin'

You can hear the engines stallin'

And all the angels fallin'
