

AmperA, At crossroad

You will never deny
That we were headed the right way all this time
Held up at a junction by pride
We just have a little time

Look at me now
Right into my soul□□x 2
I won't be lying anymore□□
Just trust me honey

Don't yet say good bye
There are plenty of winding roads just to try
Fruits to taste, sins worth living for
Just help me find the way to go

Look at me now
Right into my soul□□x 4
I won't be lying anymore
Just trust me honey
