

# Ampop, Cold Fact

Economical situation  
no one has to leave the nation  
Monopoly has taken over  
no competition, the game is over

Come on immigrants, explore the island  
Not to mention, don't spoil the silence  
We hope you'll find some place to stay folks  
pick up garbage, word of mouth walks

Yeah we know it  
but must not show it

Take a loan and I will sell you  
the whore from Greenville, what can I tell you  
You really need some education  
if you're going to serve your great temptations  
Stocks and shares are all my income  
who cares whether I'm rich or poor now  
Expectations, rapidly increasing  
Perception, constantly falling

Who is creating this?

Later on and nothing happens  
More pollution, more rich guilty men  
The problem is to be solved  
what am I now involved in?  
Who is creating this?  
Who is?
