

Amr Diab, Tamally Maak (Always With You)

i am always with you even when you are far away
your love fills my heart
i am always with you
i am always thinking about you
never forget you for a moment
i miss you even when you are by my side
oh sweetheart
i miss you so much
and want you always before my eyes
i feel so lonely when you are away
even when surrounded by people
i miss you dearly
darling don't go away
i need you near me
you are my first love
with you here i have nothing to fear
