MY NIGHTS AND DAYS

In my nights and days
come to me, my love
Don't blame me, my love,
take me with you

In my nights and days
come to me, my love
My heart always,
my love, worries for you.

My wish is
to see you before me
a sweet wish that
this were a simple love
When I'm at your side, my life
is the very best.

What can I tell you
that you've not already seen?
without telling you
what you already know
There are so many words
I want to speak
and so many words
I wish you would speak.
When I'm at your side,
my life is the very best
