MY NIGHTS AND DAYS

In my nights and days come to me, my love Don't blame me, my love, take me with you

In my nights and days come to me, my love My heart always, my love, worries for you.

My wish is to see you before me a sweet wish that this were a simple love When I'm at your side, my life is the very best.

What can I tell you that you've not already seen? without telling you what you already know There are so many words I want to speak and so many words I wish you would speak. When I'm at your side, my life is the very best
