

Amusement Parks On Fire, You Made Me Realise

What did you say you'd find
Then come, come, come
Get the hell inside
You can close your eyes
Well you might as well commit suicide

Wait for me because I waited for you
No that's not what you should do
Don't hate me 'cause I don't hate you
Insane eyes
You made me realise

Something in you died
Well no, no, no, no fault of mine
Something in you died
Well no, no, no, no fault of mine
Make the hell out of what you can see
Maybe then you'll not hang beside me
Don't ask me 'cause I cannot see
Insane eyes
You made me realise

What did you say you'd find
Then come, come, come
Get the hell inside
You can close your eyes
Well you might as well commit suicide

Wait for me because I waited for you
No that's not what you should do
Don't hate me 'cause I don't know you
Insane eyes
You made me realise
