

# Amy Arena, I Will Always Love You

I will always love you  
I will always tell you I love you,

I love you

I want a big car  
and a big house  
and a seven and a half karat sparkler full of flaws  
get it for me now!

get it?

Work your ass off day & night  
and when you come home to Greenwich Connecticut  
or Beverly Hills  
I wanna eat Chinese food for dinner

and I will always love you.

Make me breakfast in bed  
buy me manicures and pedicures  
give me servants and gardeners  
I want my legs candied and waxed  
and my body massaged with coconut oil  
and give me nannies to change the diapers

then I will be pleasant and beautiful for everyone,

everyone

even if I have orgasm after orgasm  
even if I cum and cum  
I will pretend I am dissatisfied  
That's my revenge for 5 thousand years of virginity because of you

I will always love you  
I will always tell you  
I will always love you  
Tell my friends about you

When you're dying and I hear your death rattle

I'll ignore it

when you twist and turn in your last agony  
I'll pretend I never saw it  
until you are safely and completely dead  
and all the property is in my name  
then see the wailing and mourning and the shower of tears that come out of me  
and my friends will see how desolate and devastated I am

I will always love you  
I will always tell you I love you,

I love you

□

From the other side of the grave you may wonder why I did this  
why I enjoyed myself and let you suffer working as my slave

think about it spirit,  
ghost,  
or whatever you are

I had no feelings for you in the first place

it is because of 5 Thousand years of oppression you have givin me and my sisters  
we were supposed to be your slaves  
and your cooks  
and your laundry women

heres to you baby  
I lift up my glass to you  
beside the golden door

I will always love you  
tell me that you love me too☐☐

I will always love you  
tell me that you love me too

I will always love you  
tell me that you love me too

I will always love you  
tell me that you love me too

I will always love you
