

Amy Diamond, Looks Like We Made It

(Looks like we made it)

We took the heat
We stood the pressure
We had 'em beat
We stuck together

The hard times, the bad signs
Only made us better
They wrote us off
We never listened
We flipped the odds
We went the distance
We stayed true, cause we knew
All that we'd be missing

They said: Better safe than sorry
We wrote a different story
We sure made something
Out of nothing

All right now
We managed somehow
The troubles are done 'n
Happiness won

All right now
We managed somehow
The troubles are done 'n
Happiness won
Oohh...looks like we made it

They tried to plot
That didn't play out
They dug a hole
We dug our way out
We're still here
The smoke's cleared
That's all we have to say now

We really stood the pressure
Yeah, we stuck together
I'm glad we did that
I'm so glad we did that

All right now
We managed somehow
The troubles are done 'n
Happiness won

All right now
We managed somehow
The troubles are done 'n
Happiness won
Oohh...looks like we made it
Oohh...looks like we made it

Look at us together
Still going strong
Who could do it better
Look at us together
We sure proved them wrong

Looks like we made it

Looks like we made it
We made it
We sure proved them wrong

Oohh...

All right now
We managed somehow
The troubles are done 'n
Happiness won
(Happiness won)

All right now
We managed somehow
(Yeah)
The troubles are done 'n
Happiness won
(Looks like we made it)
Oohh...looks like we made it
(Looks like we made it)
(We made it)
Oohh...looks like we made it

(Looks like we made it)
