

Amy Diamond, We're In This Together

Come to me, come quietly
Make my words your own
Honesty, be good to me
Vanity, be gone

In the dark (in the dark)
Like a river through my heart
You will be, I will see

Til the wheels come off
Til the roof falls down
Til my legs give out
Have no doubt

Til the wheels come off
Til the ship goes down
Til my breath runs out
Have no doubt

We're in this
We're in this together
In this
We're in this together

Show me how, watch closely now
Keep me safe from harm
Seal my faith, reciprocate
Hold me in your arms

In the dark (in the dark)
Like Noah made the Ark
You will carry me
Cross the raging sea

Til the wheels come off
Til the roof falls down
Til my legs give out
Have no doubt

Til the wheels come off
Til the ship goes down
Til my breath runs out
Have no doubt

We're in this
We're in this together
In this
We're in this together

In this
We're in this together
In this
We're in this together

Come to me (come to me)
Come quietly (come quietly)
Make my words your own
