

Amy Grant, Christmas Can't Be Very Far Away

(Roger Cook and Wayne Jackson)

Little bits of heaven
Floating gently by the window
Soon this dirty city will be
Covered with a new snow
Let's put on our winter boots
Go outside and play
Christmas can't be very far away
Weather girl says "bundle up"
It's gonna be a cold one
I'll put on my wooly hat
You'll wear your dad's old Stetson
Pretty lights are everywhere
Shining night and day
Christams can't be very far away

Let's take a walk downtown and
Go dream shopping in the mall
The kids can do the Santa thing
Photographs and all
We'll get the biggest tree this year
And trim it to the top
And spend a whole lot more
Than what we've got
But so what

Come next spring
I know we will be
Ready for the sunshine
Right now throwin' snowballs
At each other's such a fun time
Kids will think we're crazy
For awhile and that's okay
Christmas can't be very far away
Christmas can't be very far away
