

Amy Grant, Giggle

(Amy Grant)

[Chorus:]

Giggle, giggle if you want to
But I know it's still true
That He's always gonna' love me
So just laugh out
If you think I'm uncool
Playin' the part of the fool
'Cause I love Him, don't you know that I love Him...
Well, I do
When I see somebody cryin'
Some person who's real mean
I want to quickly walk right by him
But I'll stop for You, Dear Lord but...
Must I hug him real tight now
He smells so bad I'll faint
What will my friends think if they see me
Kill my pride... I can't

[Chorus]

When I'm in a sticky situation
Sitting in a class at school
Everybody's talking evolution
No one talks of You
My hand goes up, I don't wanna be too pushy
My arm, it feels like lead
But there is such a joy they're missing saying "God is dead."

[Chorus]

So giggle, giggle if you want to
