

# Amy Grant, Giggle

(Amy Grant)

[Chorus:]

Giggle, giggle if you want to  
But I know it's still true  
That He's always gonna' love me  
So just laugh out  
If you think I'm uncool  
Playin' the part of the fool  
'Cause I love Him, don't you know that I love Him...  
Well, I do  
When I see somebody cryin'  
Some person who's real mean  
I want to quickly walk right by him  
But I'll stop for You, Dear Lord but...  
Must I hug him real tight now  
He smells so bad I'll faint  
What will my friends think if they see me  
Kill my pride... I can't

[Chorus]

When I'm in a sticky situation  
Sitting in a class at school  
Everybody's talking evolution  
No one talks of You  
My hand goes up, I don't wanna be too pushy  
My arm, it feels like lead  
But there is such a joy they're missing saying "God is dead."

[Chorus]

So giggle, giggle if you want to
