

Amy Shark, Only Wanna Be With You

And I don't know how
You became my favourite person
Can't say it out loud
(That I only wanna be with you)
And I went out
With everyone
Under the sun
(But I only wanna be with you)
And it's a real fine line that I'm walking, baby
Dancing on the edge, don't try to save me
Let me fall deep into this mess
I only wanna be with

Only wanna be with, be with you
Only wanna be with, be with you
Only wanna be with, be with you
I only wanna be with
Only wanna tell the whole world you're mine
Only wanna kiss you all the goddamn time
Fight with you and then quickly apologize
I only wanna be with you

On a long drive home
My hand fell into yours and
The backseat turned into heaven
(I only wanna be with you)
Someone that can make me feel like you do
Something so real, some kind of voodoo
Let me fall deep into this mess
I only wanna be with

Only wanna be with, be with you
Only wanna be with, be with you
Only wanna be with, be with you
I only wanna be with
Only wanna see all of your dreams come true
Only feel alive when I'm with you
I wish we were alone if you only knew
I only wanna be with you

I only wanna be with you

And I don't know how
You became my favourite person
Can't say it out loud
(I only wanna be with you)
And I went out
With everyone
Under the sun
(But I only wanna be with you)

Only wanna be with, be with you
Only wanna be with, be with you
Only wanna be with, be with you
I only wanna be with
And it's a real fine line that I'm walking, baby (I only wanna be with)
Dancing on the edge, don't try to save me (I only wanna be with)
Let me fall deep into this mess (I only wanna be with, I only wanna be)
I only wanna be with you
(And it's a real fine line that I'm walking, baby)
(Dancing on the edge, don't try to save me)
(Let me fall deep into this mess)
I only wanna be with you
