

# Amy Studt, Beautiful Lie

Theres a sadness that they don't see  
When you come to me  
With your sorrows  
It's not enough  
For you to cry  
Cos you don't know why  
It still hurts

I know we've been here  
A thousand times  
With your past  
Full of lies  
Its still there  
A constant struggle  
To find yourself  
But I know that  
I can't help it  
Oh, no

(CHORUS)  
You don't have nothing but pride  
To keep you alive  
Yeah  
Alive, oh yeah  
I can say it will be fine  
Its a beautiful lie  
So please  
Don't leave it all up to me

I see the way  
They talk at you  
They're always trying to prove  
That they are better  
You run away  
Cos you can't take  
The way they make  
You feel

Another self hate  
Behind locked doors  
But then nobody knows  
Somethings wrong  
You made the cage  
You cannot break  
I try but i cannot help it  
(Just cos you know that...)

(CHORUS)  
You don't have nothing but pride  
To keep you alive  
Yeah  
Alive, oh yeah  
I can say it will be fine  
Its a beautiful lie  
So please  
Don't leave it all up to me

I can feel you (i can feel you)  
I can hear you (i can hear you)  
I could help you (i can help you)  
Its a beautiful lie  
Lost in silence  
Trapped by violence  
Oh

Oh, Oh

Alive, Alive

Its a beautiful lie, beautiful lie

(CHORUS)

You don't have nothing but pride

To keep you alive

Yeah

Alive, oh yeah

I can say it will be fine

Its a beautiful lie

So please

Don't leave it all up to me

You don't have nothing but pride

To keep you alive

Yeah

Alive, oh yeah

I can say it will be fine

Its a beautiful lie

So please

Don't leave it all up to me
