yer;yer;yer; shoobydoobydoo

just one more word and i'm gonna explode  
i'm gonna self combust  
i'm gonna blow up the world  
with just one more look you're gonna  
cross the line  
i mean over the edge  
you're on thin black ice  
ooooh there's a little bit of psycho in me  
i confess  
why do you wanna pick on me and not the rest  
does it make you feel big  
does it make you feel cleaver  
so tell me how's the weather

if i just had a little bit more time  
i'd get some duck tape and silver wear  
oh if i just had a little bit more time  
i'd show you

choeus:  
the world feels so much better when you find you dont fit  
there's a ladder in my tights and  
who gives a \*\*\*\*if woops you aint shiny and perfect  
there's a ladder in my tights and that's the way,uh huh,i like it  
that's the way, i feel about it you'll be trying to hitch a ride with me when it finally hits you  
yer,yer,yer,

with just one more push trying to make me you're clone  
marking me out of ten for the label on my clothes just one more squack im gonna hit you back  
i'm gonna burn down you'r house in a heated attack  
ooh there's a little bit of devil in me i confess cos you wanna pick on me and not the rest  
if i had just a little more time i'd get some c4 and dynamite  
oh if i had just a little more time i'd show you...
