

Ana Egge, It's Been Too Long

Do you believe there's water in the air
Here, there and everywhere
I need to do, what I need to
I can't go around feeling like I'm missing out
It's raining, I should go in
How I'm feeling, I should go
I don't know what I might say, baby
It's been too long
It's been too long
It's been too long, I've been holding on
to your promise for living
I need to do, what I need to
I need to do, what I need to
I can't go around feeling like I'm missing out
It's raining, I should go in
How I'm feeling, I should go
I don't know what I might say, baby
It's been too long
It's been too long
It's raining, I should go in
How I'm feeling, I should go
I don't know what I might say, baby
It's been too long
It's been too long
Do you believe there's water in the air
Here, there and everywhere
