

# Ana Johnsson, Break Through Time

Another time, another place  
A chance to start all over  
I've had my share, I've paid my dues  
I'm slowly moving forward  
I've had to learn how to forget  
But I'm still living with my regrets

If I could break through time  
I'd wipe it out, I'd come out clean  
Re-do it all like it should have been  
I'd live it loud and chase my dreams  
You'd follow me if I could break through time

I've failed to see, there's good in me  
If only I'd know better  
But in my mind I've learned to fly  
High above these walls

If I could break through time  
I'd wipe it out, I'd come out clean  
Re-do it all like it should have been  
I'd live it loud and chase my dreams  
You'd follow me if I could break through time

No there's no making up for wasted time  
Here's for all the loved ones I let down  
All I want is to leave the past behind  
Make the future mine

If I could break through time  
I'd wipe it out, I'd come out clean  
Re-do it all like it should have been  
I'd live it loud and chase my dreams  
You'd follow me if I could break through time

If I could break through time  
Make the future mine
