

Anastacia, Defeated

Selling stories that were overrated in this world so complicated
Felt so right, you tried to make it wrong
Why cant we all just get along
From the start something wasnt right
I used to cry myself to sleep at night
Told myself stand up be strong
This kind of phase doesnt last for long

Every time you try to knock me down, gonna pick my back up off the ground
The battle never ends

You can tear me apart
You can rip me to pieces
Try breaking me down
But Ill never be beaten
You can say that you won but Ill never believe it
Cos I cant be defeated

Made a mistake swore Ill never repeat it
Lost my heart for a second but it never stopped beating
I smile through the tears so the way that I see it
I cant be defeated

There are times that I couldnt take it
Never felt so violated
At the risk of sounding so clich
I just gotta call a spade a spade
Hurts me right to the core
I cant take this anymore
Getting tired of the same old song
Final chorus, now Im moving on

Things aint fair in love in war
Never been the kind to be ignored
Tried to push me to the edge

You can tear me apart
You can rip me to pieces
Try breaking me down
But Ill never be beaten
You can say that you won but Ill never believe it
Cos I cant be defeated

Made a mistake swore Ill never repeat it
Lost my heart for a second but it never stopped beating
I smile through the tears so the way that I see it
I cant be defeated

Yeah
Nothing is impossible
Nothing is unreachable
If you only believe then you get what you need
So keep on holdin on

You can tear me apart
You can rip me to pieces
Try breaking me down
But Ill never be beaten
You can say that you won but Ill never believe it
Cos I cant be defeated

Made a mistake swore Ill never repeat it
Lost my heart for a second but it never stopped beating
I smile through the tears so the way that I see it

I cant be defeated
