

# Anata, Entropy Within

Under fire, we're at war!  
Information is colliding  
With our great intentions  
And distracting our flow of energy  
We are enslaved  
By fear, rage, pain and jealousy  
Incarnations of chaos  
Rule our mind, kill our aspirations

Let's not fight ourselves!  
But the entropy ruling our minds  
It's a fight for our lives  
A strife to take control of our perception  
Fight!  
Keep fighting the enemies within,  
Fighting the entropy within

[Lead: Schalin]

Key to unlock the treasury:  
Concentration undisturbed  
State where body and mind unite  
Time fades and we're filled with euphoria

Fight!  
Keep fighting the enemies within,  
Fighting the entropy within
